# Farhan Iza Rayhan

LAST YEAR STUDENT

## Profile

I am currently a student in a renown public university in Indonesia majoring in Chemical Engineering. A kind of a genuine, driven, and honest person is what describe me as both professional and individual.

## Education

### Bachelor of Chemical Engineering, University of Pembangunan Nasional Veteran Yogyakarta, Yogyakarta, Indonesia

SEPTEMBER 2016 — PRESENT

I'm an active student both in academic and organization. These are the summaries of the activities I do in college.

- Did research about using waste coffee grounds as commercial soap raw material (2020)
- Designed a Nitroglycerine plant as Propellant explosives material (2020)
- Volunteered in several national and international projects (2016-2019)
- Joined an international organization called AIESEC (2016-2019)

## Internships

### Laboratory Assistant of Chemical Engineering Basic Experiment, University of Pembangunan Nasional Veteran Yogyakarta

JANUARY 2020 — MAY 2020

- Teach the practitioners about the theories and concepts used in the experiments.
- Prepare lab equipment for upcoming experiments.
- Assist practitioners in the in use of lab equipment.
- Monitor ongoing experiments.
- Conduct and assess the practicum seminars.

## Organization

### Head Director of Incoming Exchange Global Volunteer, AIESEC in UPNVY

FEBRUARY 2018 — JANUARY 2019

- Make strategy and planning for a whole operational year.
- Manage team consists of 3 managers and 26 members.
- Initiate and monitor 6 social projects with 30+ international volunteers.

### Organizing Committee President of ToYogyakarta, AIESEC in UPNVY

AUGUST 2017 — JANUARY 2018

- Manage a project of water sanitation in Kedungmiri village with 2 international volunteers.
- Ensure that the events and activities of the projects are running well.
- Manage the budget, program, logistics, and promotion of the project.
