PROFILE

I am a Software Engineer to-be, besides spending my leisure time by upgrading my technical skill in IT sector, I also have some hobbies as well to keep me engaged in something I enjoy. I do believe that in the future of humanity in upcoming centuries, data and digital transformation will be the centre of attention and focus. I am a person described as easy going and an eager learner with a strong and growth mindset that could help in the on-going tasks in the company.
